**ANNEXURE X: ILLUSTRATION OF BOND CASH FLOWS****\Illustration of Cash Flow**

The cash flows emanating from the non-convertible securities according to the day count convention (Actual/ Actual) shall be mentioned in the Key Information Document, by way of an illustration.

For the purpose of standardization, if the coupon/ dividend payment date of the non- convertible securities falls on a Sunday or a holiday, the coupon payment shall be made on the next working day. However, the dates of the future payments would continue to be as per the schedule originally stipulated in the offer document. If the maturity date of the debt securities, falls on a Sunday or a holiday, the redemption proceeds shall be paid on the previous working day. In order to ensure consistency, a uniform methodology shall be followed for calculation of interest/ dividend payments in the case of leap year. If a leap year (i.e. February 29) falls during the tenor of a security, then the number of days shall be reckoned as 366 days (Actual/ Actual day count convention) for the entire year, irrespective of whether the interest/ dividend is payable annually, half yearly, quarterly or monthly.

**6. Management perception of Risk Factors:**

- (i) **Repayment is subject to the Credit Risk of the Issuer.**

Potential investors should be aware that receipt of the principal amount (i.e. the redemption amount) and any other amounts that may be due in respect of the Debentures is subject to the credit risk of the Issuer. Potential investors assume the risk that the Issuer will not be able to satisfy their obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Issuer, the payment of sums due on the Debentures may not be made or may be substantially reduced or delayed.

(ii) **The Secondary Market for Debentures may be Illiquid.**

The Debentures may be very illiquid and no secondary market may develop in respect thereof. Even if there is a secondary market for the Debentures, it is not likely to provide significant liquidity. Potential investors may have to hold the Debentures until redemption to realize any value.

(iii) **Tax Considerations and Legal Considerations**

Special tax considerations and legal considerations may apply to certain types of investors. Potential investors are urged to consult with their own financial, legal, tax and other advisors to determine any financial, legal, tax and other implications of this investment.

(iv) **Accounting Considerations**

Special accounting considerations may apply to certain types of taxpayers. Potential investors are urged to consult with their own accounting advisors to determine implications of this investment.

(v) **There may be delay or failure in recovering the expected value of assets charged as security**

In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Debentures, the Debenture Trustee may enforce the Security as per the terms of security documents, and other related documents. The Investors recovery in relation to the Debentures will be subject to realisable value of assets charged as security and any failure or delay to recover the expected value of the assets charged as security in connection with the NCDs could expose the investors to a potential loss.

(vi) **Material changes in rules and regulations to which the issuer is subject could impair the issuer's ability to meet payment or other obligations.**

The Issuer is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

(vii) **Legality of purchase**

Potential investors of the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates or for compliance by that potential investor with any law, regulation or regulatory policy applicable to it.

(viii) **Political and economic risk in India**

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative

growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

(ix) **Risks related to the business of the issuer**

a) **Majority of the Issuer's loans are unsecured and the clients of these loans are of the high-risk category and if the Issuer is unable to control the level of non-performing loans ("NPAs") in the future, or if the Issuer's loan loss reserves are insufficient to cover future loan losses, the financial condition and results of operations may be materially and adversely affected.**

The loans provided by the Issuer are unsecured and if the Issuer is unable to control the level of non-performing loans ("NPAs") in the future, or if the loan loss reserves are insufficient to cover future loan losses, the financial condition of the Issuer and results of operations may be materially and adversely affected.

The Issuer cannot assure that the Issuer will be able to effectively control and reduce the level of the impaired loans in its total loan portfolio. The amount of the Issuer's reported non-performing loans may increase in the future as a result of growth in the total loan portfolio, and also due to factors beyond the Issuer's control, such as over-extended member credit that we are unaware of. Failure to manage NPAs or effect recoveries will result in operations being adversely affected.

The Issuer's current loan loss reserves may not be adequate to cover an increase in the amount of NPAs or any future deterioration in the overall credit quality of the Issuer's total loan portfolio. As a result, if the quality of the Issuer's total loan portfolio deteriorates the Issuer may be required to increase the loan loss reserves, which will adversely affect the Issuer's financial condition and results of operations. The Issuer's members largely belong to low-income segment and, as a result, might be vulnerable if economic conditions worsen or growth rates decelerate in India, or if there are natural disasters such as floods and droughts in areas where the Issuer's members live. Moreover, there is no precise method for predicting loan and credit losses, and the Issuer cannot assure that the Issuer's monitoring and risk management procedures will effectively predict such losses or that loan loss reserves will be sufficient to cover actual losses. If the Issuer is unable to control or reduce the level of its NPAs or poor credit quality loans, the Issuer's financial condition and results of the Issuer's operations could be materially and adversely affected.

b) **The Issuer's is exposed to operational risks, including employee negligence, petty theft, burglary, embezzlement and fraud by employees, agents, customers or third parties, which could harm our Company's results of operations and financial position.**

The issuer is exposed to many types of operational risks. Operational risks can result from a variety of factors, including failure to obtain proper internal authorizations, improperly documented transactions, failure of operational and information security procedures, computer systems, software or equipment, fraud, inadequate training and employee errors. The issuer attempts to mitigate operational risk by maintaining a comprehensive system of internal controls, establishing systems and procedures to monitor transactions, maintaining key back-up procedures, undertaking regular contingency planning and providing employees with continuous training. Any failure to mitigate such risks may adversely affect our Company's business and results of operations.

The Issuer's dependence upon automated systems to record and process transactions may increase the risk that technical system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect.

The Issuer maintains an internal audit process to ensure the operations team follows the defined procedures and reports any deviations to the operations staff and management team. The Issuer also has a strong MIS system that has a wide range of data that can be used to monitor financial and operational performance.

**c) Loans due within one-year account for almost all of the Issuer's interest income, and a significant reduction in short term loans may result in a corresponding decrease in its interest income.**

All of the loans the Issuer issues are due within approximately one year of disbursement. Any potential instability of the Issuer's interest income could materially and adversely affect the Issuer's results of operations and financial position.

The loans given by the issuer are at fixed interest rate, and the tenor of the underlying asset is from 62 days to One year which has provided stability to the portfolio and interest income and has also smoothed operating expense.

**d) The Issuer is exposed to certain political, regulatory and concentration of risks**

Due to the nature of its operations, the Issuer is exposed to political, regulatory and concentration risks. The Issuer believes a mitigate to this is to expand its geographical reach and may consequently expand its operations other states. If it is not effectively able to manage such operations and expansion, it may lose money invested in such expansion, which could adversely affect its business and results of operations.

**e) Large scale attrition, especially at the senior management level, can make it difficult for the Issuer to manage its business.**

If the Issuer is not able to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain the Issuer's quality and reputation, it will be difficult for the Issuer to manage its business and growth. The Issuer depends on the services of its executive officers and key employees for its continued operations and growth. In particular, the Issuer's senior management has significant experience in the vehicle finance, banking and financial services industries. The loss of any of the Issuer's executive officers, key employees or senior managers could negatively affect its ability to execute its business strategy, including its ability to manage its rapid growth. The Issuer's business is also dependent on its team of personnel who directly manage its relationships with its members. The Issuer's business and profits would suffer adversely if a substantial number of such personnel left the Issuer or became ineffective in servicing its members over a period of time. The Issuer's future success will depend in large part on its ability to identify, attract and retain highly skilled managerial and other personnel. Competition for individuals with such specialized knowledge and experience is intense in this industry, and the Issuer may be unable to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain its quality and reputation or to sustain or expand its operations. The loss of the services of such personnel or the inability to identify, attract and retain qualified personnel in the future would make it difficult for the Issuer to manage its business and growth and to meet key objectives.

**f) The Issuer's business and results of operations would be adversely affected by strikes, work stoppages or increased wage demands by employees**

The employees are not currently unionized. However, there can be no assurance that they will not unionize in the future. If the employees unionize, it may become difficult to maintain flexible labour policies, and could result in high labour costs, which would adversely affect the Issuer's business and results of operations.

**g) The Issuer's insurance coverage may not adequately protect it against losses. Successful claims that exceed its insurance coverage could harm the Issuer's results of operations and diminish its financial position**

The Issuer maintains insurance coverage that it believes commensurate with its operations such as Directors' and officers' liability insurance other general liability insurances. The Issuer's insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage.

In addition, there are various types of risks and losses for which the Issuer does not maintain insurance, such as losses due to business interruption and natural disasters, because they are either uninsurable or because insurance is not available to the Issuer on acceptable terms. A successful assertion of one or more large

*(This Key Information Document is neither a prospectus nor a statement in lieu of prospectus)*

claims against the Issuer that exceeds its available insurance coverage or results in changes in its insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect the Issuer's business, financial condition and results of operations.

**h) Competition from banks and financial institutions, as well as state-sponsored social programs, may adversely affect our profitability and position in the Indian lending industry**

The Issuer faces most significant competition from other NBFCs and banks in India. Many of the institutions with which Issuer competes have greater assets and better access to, and lower cost of, funding than the issuer. In certain areas, they may also have better name recognition and larger member bases than Issuer. Issuer anticipates that it may encounter greater competition as they continue expanding the operations in India, which may result in an adverse effect on the business, results of operations and financial condition.

## ANNEXURE XII: SPECIFIC DISCLOSURES REQUIRED FROM NBFC

## (i) Lending Policy: Should contain overview of origination, risk management, monitoring and collections;

<b>Origination / Sourcing</b>	The Issuer has well established origination channels and a low cost customer acquisition strategy. More than 50% of the customers are acquired organically for which no costs are incurred. Diversified customer acquisition channels include traffic partners like Facebook and Google, channel partners such as Paisabazar and Bankbazar which generate qualified leads. A strong referral system has created a loyal ecosystem of borrowers. DSAs have also been introduced which are adding new customers gradually. Issuer has the lowest CAC as compared to its peers within the industry as a result of this comprehensive sourcing strategy
<b>Initial Assessment / Verification</b>	<p>There are various scores that are used to aid the decision-making process during the life cycle of the customer. The key scores help in the initial assessment of the customer are as described below:</p> <ol style="list-style-type: none"> <li>I. <b>Bureau score:</b> Score obtained from one of the 4 bureaus (Cibil, Crif, Experian, Equifax). Based on the tradelines and enquiry information a custom score has been created for KreditBee's loan product..</li> <li>II. <b>Income Estimator Score:</b> This score provides an estimate on the effective income of the customer based on various data sources like the Bureau, declared Income.</li> <li>III. <b>Connectivity Score:</b> Based on the connectivity parameter from various sources like KreditBee SMS and message delivery status, collections agent's calling disposition status, etc. a connectivity score is created to measure the riskiness of the profile.</li> <li>IV. <b>Device Score:</b> Based on the device information which includes location information and other device's system variables.</li> <li>V. <b>Origination score / A-Score card:</b> Custom score card based on first and second loan data of users across 400 variables using logistic regression.</li> <li>VI. <b>Collection score card:</b> Experience based custom score card based on repayment data of user.</li> <li>VII. <b>PAN name matching score:</b> A score that captures how much of name entered by user matched the one in PAN database in NSDL</li> <li>VIII. <b>OCR score:</b> An OCR score that captures how much of details entered by user is matching the data in the documents uploaded.</li> <li>IX. <b>Live photo score:</b> A score that indicates if the selfie taken is that of a live human being.</li> <li>X. <b>Photo match score:</b> A score that indicates, if the selfie of user matched the photo of the customer in the other documents uploaded.</li> </ol>
<b>Credit Appraisal System</b>	<p>The key factors considered before taking a loan decision are:</p> <ol style="list-style-type: none"> <li>1. <b>Eligibility check to be a customer:</b> The customers identity is verified using social network, government ID, age, blacklist, address book network, GPS location network, device data including IMEI for impersonation and user is accepted or rejected.</li> <li>2. <b>Profile check to get a credit line:</b> The customers profile is verified using data based on government ID, social network, age, profession, address book network, bureau score and derived data from bureau data users' ability to pay and willingness to pay is validated and user can take a loan or is rejected.</li> <li>3. <b>Bank add check to disburse loan:</b> The customer's name in bank account is validated when the user adds his bank account for loan disbursement and this further plays a role in validating users' identity.</li> <li>4. <b>Eligibility check for higher loan:</b> The customers are evaluated on specific data from bureau, blacklist, age, income, address book network for ability to take larger credit lines. This is in addition to Eligibility check to be a customer.</li> </ol>

	<p>5. <b>Profile check for higher loan:</b> The customers are evaluated based on bank statement data and monthly salary slip data in addition to Profile check to get a credit line for ability to take larger credit lines.</p> <p>6. <b>Employment validation for higher loans:</b> The customer’s employment information is also validated either through the bank statement data or Provident Fund by EPFO or tax paid information via the 26AS government form.</p> <p>7. <b>Loan disbursal check:</b> The customers data from e-sign, and bank before disbursal of loan amount allows in validating users’ identity.</p> <p>8. <b>Payment check:</b> The customers data from repayment and phone data is used to understand the customers appetite for repayment of loan to extent further credit line or increase of credit line.</p> <p>9. <b>Reassessment Process for re-activating customers:</b> For the applicants or customers who were rejected because of bad payment behaviour either in KreditBee or some other platform, a reassessment is done on re-application post 6 months to see if the applicant’s situation has improved and he/she falls within the company’s policy norms.</p> <p>10. <b>Reassessment Process for Credit Line changes:</b> Once every 6 months, the bureau data is re-run to ensure that the customer’s payment profile in other lending platforms is also taken into consideration for subsequent changes. This is used as a risk management as well as a credit line enhancement strategy</p>							
<p><b>Disbursement</b></p>	<p>once the customers’ profile is approved on the KreditBee App after passing through the risk and rule engines, they are eligible for a loan and assigned to KrazyBee NBFC. Funds are disbursed directly in the customers’ bank account through KrazyBee’s escrow account.</p>							
<p><b>Collection</b></p>	<p>Customers are informed and reminded of the due date for repayment through the KreditBee App. Customer pays via the App, through the payment gateway. The payment gateway settles the funds in the repayment Nodal account on a T+1 working day basis to KrazyBee. The company has a robust in-house collection team of 800+ personnel handling tele calling, CRM, customer education, etc. Physical collection capabilities have also been set up by onboarding 100+ agencies PAN India. Salient features of the collection strategy include :</p> <ul style="list-style-type: none"> <li>a) Collection scorecard is used for prioritization to improve agent efficiency</li> <li>b) Automated reminder system is used to create urgency for lower DPDs while it is used to identify reachable customer for higher DPDs</li> <li>c) Efficient vernacular collection through agent coverage in all languages</li> <li>d) Collection policy is formulated as per RBI guidelines and customer grievances are handled on priority to ensure no major escalations</li> <li>e) Performance based incentives, HR processes and Knowledge management are key attributes for continuous improvement</li> </ul>							
<p><b>Delinquency Management</b></p>	<p>The Company has an experienced and efficient recovery team on the payroll who ensure timely action for recovery of over dues. Separate collection strategies are deployed for high risk and low risk customers. This segregation is done on the basis of proprietary collection scorecards.</p> <table border="1" data-bbox="375 1608 1252 1871"> <thead> <tr> <th data-bbox="375 1608 634 1682">Buckets</th> <th data-bbox="634 1608 1252 1682">Repeat/Low risk customers</th> </tr> </thead> <tbody> <tr> <td data-bbox="375 1682 634 1818" rowspan="2">1-30 DPD</td> <td data-bbox="634 1682 1252 1776">1.
