b. Lending policy:

ABHFL's risk philosophy involves a competent and comprehensive credit risk management framework & robust policies and processes which minimize the element of uncertainty and help in developing and maintaining a healthy portfolio within its risk appetite and the regulatory framework. Credit Risk is managed and controlled through a Credit Risk Management framework comprising detailed risk evaluation of borrower and security. Distinct policies and processes are in place and people who occupy key positions are professionally qualified (CA/MBA). For each product, programs defining customer segments, underwriting standards, security structures, etc. are specified to ensure consistency of credit patterns. All the cases are approved by Credit Committees formulated at different levels with various approval limits. After sanctioning the loan, regular monitoring of the accounts is also done to sight irregularities if any and where required prompt action is initiated.

As Credit Risk is one of the major risk faced by a Company, the policies and processes are reviewed periodically and, if need be, is revised in order to keep them up-to-date. Keeping in view the fast-changing business environment and customer requirements, ABHFL has also put in place a suitable mechanism to understand the business needs of the customer and address them swiftly. Accordingly, the Product Approval Committee (PAC) considers and approves new products for pilot runs and formal launch. This committee also reviews all existing products, whenever required, and approves any modifications in or variants of existing products. ABHFL has developed expertise to underwrite all kinds of customer segments (Salaries, self-employed professionals, self-employed non-professionals) and our underwriting guidelines are benchmarked to the market and adequate internal controls are put in place to maintain the quality of loans being approved. The credit appraisal process involves an in-depth study of the industry, financial, commercial, technical and managerial aspects of the borrower as warranted by the Product Program and the latest Credit assessment and decision-making process.

While ABHFL has been making efforts towards introducing risk management practices on an on-going basis, the credit policy would emphasize on initiating a paradigm transition towards a completely integrated risk management system in tune with the New Capital Adequacy Framework Establishment of Credit Culture. ABHFL's credit risk management strategy is based on a clear understanding of various risks, disciplined risk assessment and measurement procedures and continuous monitoring. The policies and procedures established for this purpose are continuously benchmarked with market best practices. The RMC nurtures a healthy and independent risk management function to inculcate a strong risk management culture in the Company.
